

Rotary Harrow

Delta Rotary Harrow

Ruggedly designed for aggressive harrowing, the Delta Rotary Harrow is a multi-purpose tool that can be used for several jobs around the farm, business or arena. The Delta Rotary Harrow:

- Cultivates and harrows in one pass eliminating ridges and leaving a smooth level surface
- Quickly levels arena surfaces during equine or rodeo events
- Ideal for nursery weed control under trees and shelterbelts
- Pulls back soil build up along fence lines
- Eliminates ruts and puddles and breaks up tough soil

Specifications

- 5/8" tynes easily unbolted for sharpening or replacing (no welding required).
- Ground driven design (no PTO required - right arm is lowered to engage clockwise rotating action or raised to engage anti-clockwise rotating action).
- Easily adjust centre link of 3 point hitch for more aggressive harrowing.
- Attaches to any 3 point hitch.
- Available in 6' & 8' diameters

SIZE (metre)	1.83 (6')	2.44 (8')
Total Weight (kg)	209.09	245.45
Weight Per Points (kg)	5.22	5.21
Number of Tynes	20	24
Power Requirements (hp)	25-30	35-40

Options

- Hydraulic Drive with adjustable speed
